Learn English!

The "Intro to English" courses provide the necessary base to begin to understand the language. With options to attend classes four days a week, students may practice on a daily basis to understand and better their understanding of the language to move to upper levels. The focus of the introductory courses is primarily the basic principles of the language and comprehension to advance to the next level and conversation.

Improve your English!

In the intermediate and advanced levels, the focus is on the components of language, reading, writing and comprehension of the English language. Our goal is for students to receive the basis to use the language in their daily lives and work. The levels to improve the language provide one day of conversation where they discuss current events and topics. At the end of the advanced level, students receive a diploma and the opportunity to reach out to the community college for further education.
